A passionate and enthusiastic Digital Designer that focuses on functionality and clean visual design.

Experience

Senior Web Designer
Cofense, Inc - Remote/London, UK - (July 2018 - Present)

Leading the design vision for PhishMe's awareness training and overhauling the visual design. Lead designer and developer on an internal design system, which consists of 24+ custom components built using native JS and SCSS. Conducting research, prototyping and usability testing. Managing and assigning tasks, staying aware of progression to completion. Proofing design work to ensure designs are error-free, built to spec and WCAG compliant.

Web Designer
Cofense, Inc - Remote/London, UK - (October 2015 - July 2018)

Design and developing HTML emails, HTML interactive and animated pieces, and landing pages. Producing infographics, character illustrations and icons.

Infantry Soldier (Rifleman and Anti-tank Javelin Operator)
British Army - Paderborn, Germany - (November 2009 - September 2015)

As a Rifleman carrying out a range of security tasks from patrolling, guarding personnel and establishments. Operating and maintaining weapons, equipment and vehicles. As an Anti-tank Javelin Operator working in small teams ahead of the others observing targets and regularly reporting back over radio. Operating and maintaining specialist optical equipment and other specialist anti-tank equipment.
